## Armament Set UK Lewis with Mount

Model : AS Lewis with Mount

Manufacturer : -

### LEWIS MACHINE GUN KIT

Add the finishing touch to your favorite warbird.

These guns incorporate CNC cut brass, wood and aluminum construction like that found in our scale instrument kits.

The gun kits include laser cut parts and machined aluminum rifle barrel with a flash suppressor Plus a Foster mount ideal for those of you building an SE5.

The kits also have illustrated assembly directions including plans of actual gun placements.

The guns are offered in 1/12 through 1/3 scale sizes with other scales by special order.

The builder will need to supply a piece of aluminum tube or dowel rod paint and glue to complete.

Lewis gun kits are sold individually.

Full scale 7/8 and 3/4 size gun kits or assembled replicas are available too. These large scale replicas can be gas operated. Large scale kits are specially made to suite your specifications. Call for details.
