1911 Curtiss Model D

Specifications: Scale 1/4
Covering: Coverite
Engine OS 120
Plywood shipping container
Radio JR 4ch
Price \$5,000

One a series of three Curtiss Pushers we built a couple of years ago.

One went to The Curtiss Wright Corporation.

One went to Joe Hauk in Wisconsin and was seen in a recent article in Model Aviation on his collection and this last model was flown in a vintage air race in Washington state.

This super detailed beauty comes with full sized plans and full scale blueprints from the Smithsonian.

The radio system actually is inside Glenn. The pilot figure actually flies the airplane.
