## IDK German - Specific to inline engines only

Model : German In Line Instruments

Manufacturer : -

German In Line Instruments

With the authentic graphics provided from WWI Aero Magazine we have been able to reproduce these authentic vintage engine dials in engraved plastic.

These are the fuel system pressure and distribution indicators specific for in line engines (Mercedes, Daimler & BMW)

These are just the thing for any one building a D7, Albatross, Pfalz or Gotha. Don't fly without these, you will run out of gas!
