## MQ Curtiss F Model Airplane

Model : Curtiss Model F Boat

Manufacturer : Curtiss

If you like varnished wood you will love this scale design of Glenn Curtiss' pre war Model F flying boat.

The kit comes with a dummy OX-5 engine, laser cut wood, precision cut water jet brass fittings, turnbuckles, machined aluminum pulleys.

With tons of empty space inside the hull this is an excellent choice for conversion to electric power.

With the scale Curtiss instruments in the cockpit and laser cut engine parts scale detailing is easy.

Recommended for intermediate builders.

Pilots figures optional

In The Airplane Model Kit

- Working Cable System
- OX 5 Engine Kit
- Laser Cut Parts

- Optional Pilot Kits
